Unfortunately, all the work I have done for my job is under a non-disclosure agreement (NDA)

EXPERIENCE

Strong Jun Front-end Developer
Discovery-studio

Sep 2022 - 2023 , Bishkek, Kyrgyzstan

Discovery studio is a young outsourcing company,
Where I participate as a novice developer in the Russian project "Innopolis".
The Games of the Future is an international tournament in 16 hybrid disciplines, which will be held in February 2024.
Disciplines test athletes' physical fitness and their digital skills;

In projects, I use React, integrate the web application with the api, configure routing, validation, create dynamic user interfaces and custom page elements

Middle Front-end Developer
Just

Feb - 2023 - Present , Almaty, Kazakhstan

Just is a Kazakhstan outsourcing company where I work remotely. Support and maintenance of existing projects, ensuring their stable operation and making the necessary corrections, I was engaged in API integration, refactoring the user interface of the site,
the entire project was written in TypeScript using the Ext Js library
